What's New in the Water 8?

* Easy-to-use and fancy-to-look.. SCORE Water 8 will not have an installer so you will not be able to install it on your PC as a stand-alone program. The installer will work only if you are installing Water 8 along with the Fonts.Water 8 requirements: * Yahoo Widget Engine People who viewed this item also viewed In English (US) The Benefit of Water 8: Water 8 is a widget that will help you keep track of your water consumption on your desktop.. Water is the source of life for living things. One of the most important things in the universe is keeping water and drinking it. Water 8 is a widget that will help you keep track of your water consumption on your desktop.. Water 8 is a widget that will help you keep track of your water consumption on your desktop. It simply runs in the background and tracks your water consumption and send alerts if you drink too much. It's free! At the moment there are three types of water consumption alerts: * Email alerts for drinking coffee and alcohol, * Email alerts for water consumption on the mobile, * Landline alerts if you have a landline. To see all the water consumption alerts that Water 8 can track just click on the "Water Tracker" button on the Water 8 home page User reviews Author/Owner: Ozzy13 Posted: June 21, 2011 Water 8 description Description : Water 8 is a widget that will help you keep track of your water consumption on your desktop. It simply runs in the background and tracks your water consumption and send alerts if you drink too much. Water consumption trackers, that are designed to help you cut down on the amount of water that you drink. They are surprisingly easy to use but require regular maintenance. For example, if you add a widget to your homepage, it will just show when your low on water and not high. There is an issue with this widget, (it does not work on Safari and Firefox but on other browsers works fine). So if you install this widget, install the "Fonts" as well because this widget will not work as a standalone app and there is no installer included. This is a standard tool that you can use to track your water usage. It is

super simple to use, it adds no additional clutter to your desktop and it really does
